

AMINO User Guide

CABLE CONNECTION:

- ① HDMI CABLE
- ② USB Port for Wifi dongle
- ③ Ethernet Cable (LAN cable)
- ④ Power supply

(Please connect power cable at the end)

✖ **Please use the power cable which provided.**
Do not use the other power cable of similar
kind from different device.

✖ **You do not have to use the Wifi Dongle if you connect internet by LAN cable. (We recommend to use LAN cable to watch JSTV-i)**

1. Menu languages / Select languages

1. Language setting menu will be displayed on the screen after a few minutes when you connect the power cable.
2. Select your preferred language.
3. You can change your language preference by pressing the colour buttons on the remote control at anytime.

Red => Japanese

Green => English

2. Sign-in

(✖ [To use the remote control, refer to the next page](#))

1. Input your username using the numeric button on the remote control.
2. Move down to the password field and press OK button, then the colour of the password field will be changed from blue to orange. Now it's ready to input your password.
3. Select **SIGN IN** and press the **OK** button.
4. Channel selection will be displayed on the screen.
5. Select a channel with right/left allow button and press **OK** or select 1 or 2 by pressing the numeric button .

3. Change the channel

You will be able to change the channel while you are watching by pressing the numeric button.

JSTV1 = 1

JSTV2 = 2

AMINO ROMOTE CONTROL USER GUIDE

HOW TO INPUT THE ALPHABET

1. Press and hold the numeric/alphabet button on the remote control. The will appear one by one. Release the button when you see a required alphabet that you need to enter.
2. Press **P<P** button which placed above numeric button to delete a letter you entered.

ENTER UPPER CASE LETTER (CAPITAL LETTER)

- When you press down and hold the **0** button, character selection appears as 0 > A > 0 > a > 0 > A. When "A" appears, release the button and you will be able to enter the capital letter.
- To switch back to small letter, Press down and hold **0** button and choose "a".
- Delete it (Press **P<P** button) and back to enter the capital character which you need username or password.
